

# Call 5 document

---

28 APRIL 2023

---

**EUCF**  
European City Facility

---

The fifth call for applications is open from the 28<sup>th</sup> of April 2023 00:00 (Brussels time) to the 30<sup>th</sup> of June 2023 17:00 (Brussels time)

#### **/ OBJECTIVE**

The European City Facility (EUCF) aims to support municipalities and local authorities in developing Investment Concepts related to the implementation of actions identified in their climate and energy action plans. The ultimate objective of the EUCF is to build a substantial pipeline of sustainable energy investment projects across municipalities in Europe.

#### **/ FINANCIAL SUPPORT**

The EUCF finances the development of an Investment Concept with a fixed grant of 60 000 EUR.

#### **/ ELIGIBILITY**

The EUCF is open to all municipalities/local authorities, their groupings, and local public entities aggregating municipalities/local authorities from the 27 EU Member States, Iceland and Ukraine. Applicants are required to have a climate and/or energy plan. This includes SECAPs (Sustainable Energy and Climate Action Plans), developed within the Covenant of Mayors initiative, or other climate and/or energy plans with mitigation targets.

Moreover, applicants have to demonstrate political commitment to the development of the Investment Concept through a letter of support, signed by the Mayor or other relevant political representative.

The applicant must commit to the EUCF monitoring period of two years.

[Link to Eligibility Check.](#)

#### **/ WHAT CAN BE FINANCED**

The EUCF finances activities, such as (technical) feasibility studies, market analyses, stakeholder analyses, legal, economic and financial analyses, risk analyses, etc., that are required to develop the investment concept. These activities can be delivered by in-house staff or subcontracted external experts.

The grant cannot directly finance the actual investments, but it covers costs to mobilise resources and access services to develop an investment concept.

#### **/ CRITERIA**

**Applications are evaluated based on 4 evaluation criteria:**

1. Ambition of the proposed investment concept
2. Governance structure for the development of the investment concept
3. Stakeholders engagement strategy
4. Coherence and plausibility
- 5.

Please find the full details of the evaluation process in the [Guidelines for applicants](#).

---

## / ADVANTAGES OF JOINT APPLICATIONS

In line with the EUCF objectives, local authorities/municipalities are strongly encouraged to join forces and resources and submit joint applications, to increase the ambition of the application and increase the chances of success.

Do you want to apply as a grouping? Check our website and see what you should consider when [applying as a grouping](#).

Local public entities aggregating municipalities/local authorities are also eligible. A non-exhaustive list of potential eligible applicants included in this category can be found on the [EUCF website](#).

## / TIMELINE

The fifth EUCF call will open on the 28<sup>th</sup> of April 2023, 00:00 (Brussels time). The deadline for submitting your application is on the 30<sup>th</sup> of June 2023, 17:00 (Brussels time).

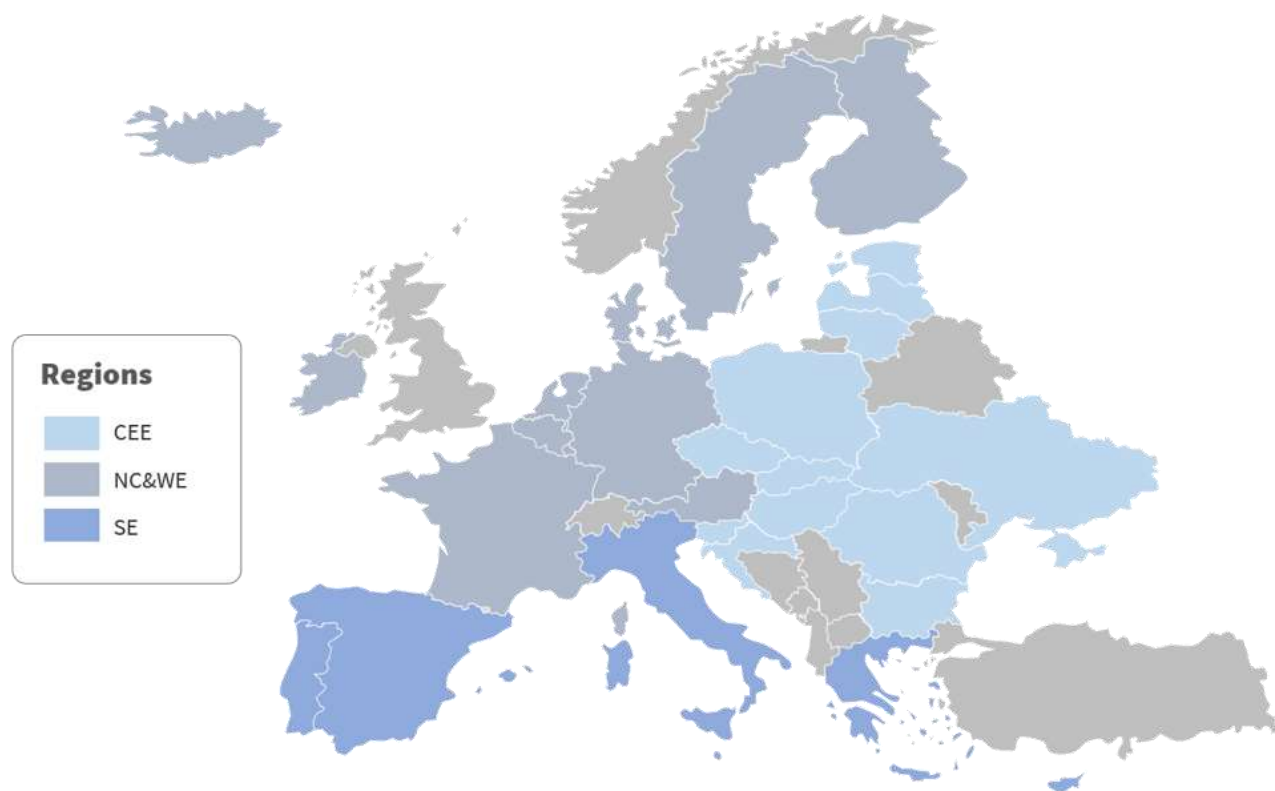

## / HOW TO APPLY

The overall application process consists of an (1) [eligibility check](#) and in (2) filling in an [application form](#). Once successfully passing this eligibility check, performed by the applicants themselves directly on the EUCF website, the applicant will be directed to the online portal that includes the application form to be filled in and submitted.

The application form will be accessible online as of the 28<sup>th</sup> of April 2023 via the EUCF website under “[Online Application](#)”.

For more information on the Application Process, click [here](#).

The EUCF calls are organised in parallel for three geographic regions including all eligible countries (EU 27 Member States, Iceland and Ukraine) as displayed in the map below:

**/ BUDGET**

This 5<sup>th</sup> call will support the development of 70 investment concepts, with a total budget of 4.2 M EUR allocated to the three regions according to the table below:

Region	Countries	Budget available for the 5 <sup>th</sup> call (in M EUR)	Number of Investment Concepts financed
Central and Eastern Europe (CEE)	Bulgaria, Croatia, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovenia, Slovakia Ukraine.	1.68	28
Nordic countries & Western Europe (NC&WE)	Austria, Belgium, Denmark, Finland, France, Germany, Iceland, Ireland, Luxembourg, Netherlands, Sweden.	1.08	18
Southern Europe (SE)	Cyprus, Greece, Italy, Malta, Portugal, Spain.	1.44	24
Total available for this call		4.2 M EUR	70

---

## / EXPECTED OUTPUT

The expected output is the developed investment concept, i.e. a document providing investors and financial institutions with necessary information to assess an investment project.

## / FURTHER INFORMATION, SUPPORT and FAQs

Please read the [Guidelines for Applicants](#) and the [FAQs](#) on the EUCF website, before applying. For specific queries, please contact the [EUCF Helpdesk](#) or the [Country Expert](#), responsible for your country.

# About the European City Facility

Municipalities, local authorities, and local public entities are the driver of the European sustainable energy transition. With tremendous potential to build comprehensive sustainable investment programmes, they also play a key role in pooling smaller projects into larger investment portfolios and in mobilising significant financial resources required for the energy transition.

Originally set up under the EU's Horizon 2020 Research and Innovation Programme, and now funded by the EU's LIFE Programme, the EUCF unlocks this local potential and support municipalities, local authorities, their groupings and local public entities aggregating municipalities/local authorities in Europe with tailor-made, fast and simplified financial support (in the form of EUR 60,000 lump sums) and related services to enable them to develop relevant investment concepts related to the implementation of actions identified in their climate and energy action plans.

Successful applicants to the EUCF have used the lump sum to develop their investment concept, which represents an initial step towards a fully-fledged business and financial plan. The ultimate objective is to build a substantial pipeline of sustainable energy investment projects across Europe and to inspire other local authorities and public entities to develop bankable investment concepts.
