Investment Advisory Group mission

The Investment Advisory Group (IAG) is part of the EUCF Governance bodies. The IAG main goal is to ensure a solid link between the EUCF operation and outcomes and the expectations of potential investors.

The IAG mission is to provide feedback to the EUCF team on a set of different activities:

1. Provide feedback on the calls for beneficiaries and more specifically on the structure and key content elements of the application form;
2. Provide feedback on the EUCF match-making activities and the EUCF investors network set-up;
3. Provide information and be engaged in the capacity building activities targeting selected beneficiaries;
4. Promote the EUCF and its calls for beneficiaries.

Investment Advisory Group composition

The IAG consists of a limited number of selected representatives from key potential public as well as private investors. The IAG includes up to 5 members representing banks and investors. The IAG members have been selected based on the relevance of their offers for the EUCF beneficiaries and their geographical scope to ensure a balanced and EU-wide coverage.
