The fourth call for applications will be open from the 9th of June 2022 00:00 (Brussels time) to the 30th of September 2022 17:00 (Brussels time).

/ OBJECTIVE

The European City Facility (EUCF) aims to support municipalities and local authorities in developing Investment Concepts related to the implementation of actions identified in their climate and energy action plans. The ultimate objective of the EUCF is to build a substantial pipeline of sustainable energy investment projects across municipalities in Europe.

/ FINANCIAL SUPPORT

The EUCF finances the development of an Investment Concept with a fixed grant of 60 000 EUR.

/ELIGIBILITY

The EUCF is open to all municipalities/local authorities, their groupings, and local public entities aggregating municipalities/local authorities from the EU Member States, EEA-EFTA States (Iceland, Liechtenstein and Norway) and the United Kingdom. Applicants are required to have a politically approved climate and energy plan. This includes SEAPs (Sustainable Energy Action Plans)/SECAPs (Sustainable Energy and Climate Action Plans), developed within the Covenant of Mayors initiative, or plans of similar ambition with climate and energy targets at least for the year 2020.

Moreover, applicants have to demonstrate political commitment to the development of the Investment Concept through a letter of support, signed by the Mayor or other relevant political representative.

The applicant must commit to the EUCF monitoring period of two years.

[Link to Eligibility Check](#).
/ WHAT CAN BE FINANCED

The EUCF finances activities, such as (technical) feasibility studies, market analyses, stakeholder analyses, legal, economic and financial analyses, risk analyses, etc., that are required to develop the investment concept. These activities can be delivered by in-house staff or subcontracted external experts.

The grant cannot directly finance the actual investments, but it covers costs to mobilise resources and access services to develop an investment concept.

/ CRITERIA

Applications are evaluated based on 5 evaluation criteria:

1. Investment size;
2. Energy savings;
3. Governance structure;
4. Stakeholder engagement;
5. Alignment with EUCF objectives.

Please find the full details of the evaluation process in the Guidelines for applicants.

/ ADVANTAGES OF JOINT APPLICATIONS

In line with the EUCF objectives, local authorities/municipalities are strongly encouraged to join forces and resources and submit joint applications, to increase the ambition of the application and increase the chances of success.

Do you want to apply as a grouping? Check our website and see what you should consider when applying as a grouping.

Local public entities aggregating municipalities/local authorities are also eligible. A non-exhaustive list, of potential eligible applicants included in this category can be found on the EUCF website.

/ TIMELINE

The third EUCF call will open on the 9th of June 2022, 00:00 (Brussels time). The deadline for submitting your application is on the 30th of September 2022, 17:00 (Brussels time).
European City Facility - Fourth Call for Applications:
Support local authorities in developing investment concepts for sustainable energy
